

Molly Donohue

Profile

Senior Frontend Engineer with five years experience developing web applications

Employment History

Software Development Engineer IV, Adobe, San Francisco

JULY 2018 – PRESENT

Implemented rich frontend features to help users create, view, organize, and share their Creative Cloud Libraries content such as fonts, audio files, 3D objects, and gradients

- **Integrations** Led team of 6 to support Creative Cloud Libraries in Photoshop on Mac ARM; wrote API integration logic with Adobe Stock and Capture workflows; async inter-app communication logic; and custom tooling in form of CSS linter script to catch unsupported style tags in cross browser environment
- **React web app development** Created reusable, maintainable, and accessible React components to support sharing and viewing Libraries on assets.adobe.com for 100 million+ MAU
- **API** Supported rewrite of a new Libraries JS API in Node.js and Typescript to interface with both desktop and web clients, connecting dozens of Adobe Cloud services and APIs.
- **Mentoring** Provided technical mentorship to 2 summer interns, resulting in conversions to full time positions. Onboarded new team of 10 engineers based in India

Frontend Development Intern, Warby Parker, New York City

JUNE 2017 – SEPTEMBER 2017

- Learned best practices to build responsive web components for the consumer facing (100K+) warbyparker.com, including how to run A/B experiments using Optimizely, and fix cross-browser UI compatibility issues
- Collaborated with multidisciplinary team to implement new footer project, improved SEO ranking by 10-20%, estimated at \$150-400K in OLM saving

UX and Frontend Software Engineer Intern, KEXP 90.3 Radio, Seattle

APRIL 2016 – JUNE 2017

- Designed and developed Streaming Archive interface, improving time on page by 300%
- Helped transition legacy website to new kexp.org by rewriting components and integrating with micro-services

Education

B.S. in Human Centered Design and Engineering, University of Washington, Seattle

SEPTEMBER 2014 – JUNE 2018

with relevant coursework in Computer Science and Engineering
